## Services/products for AIS

### [Air Navigation Data](#)

Produces software for instrument procedure design, airspace development and aeronautical data management.

### [ASA](#)

Integrated System for AIS Automation (I-AIM wSys) – ASA is ESI INO/SDO EAD Data User.

### [ASAP](#)

ASAP is a provider of aeronautical services. We are primarily involved with designing and checking safety critical flight procedures for arrival and departure routes at major airports worldwide. The ASAP site contains information on IFR procedure design (Pans-Ops) and a procedure design discussion area.

### [Astac](#)

Specialised courses in PANS-Ops and AIS.

### [Avitech](#)

Civil & Military NOF; NOTAM, OPMET, WAFS Database; Integrated Flight Briefing Terminal AviTerm and webPortal; ICAO & IFPS/CFMU ETFMS FPL System; ADP & SDP Workflow; AICM Database and AIXM 4.5++ Export/Import, ESI/ENA Interface, eWiz@rd Suite and Portal covering the whole uninterrupted Aeronautical Data Chain from Origination (Upstream) to Publication (Downstream), Data Centric Approach, 4-eyes principle. eTOD Database and Services for Area 1 to 4, remote sensing. Aeronautical Exchange Layer (AxL). Products planned along the ICAO Roadmap from AIS to AIM.

### [BAE Systems](#)

ClearFlite - an airfield obstruction software tool that allows operators to easily identify and collect vertical obstructions in and around airfields using stereo imagery.

### [Bytron](#)

AIS NOTAM Management.

### [Carmenta](#)

Offers GIS software solutions for business-critical applications. In the aeronautical area, Carmenta's software development tools and server applications are used for building advanced planning, navigation and production systems.

### [CGX AEROinSYS](#)

AIP-GIS® - a dedicated tool for AIS, Airlines, Pilots and Education Centers, AIP-GIS Charting®.

### COMSOFT

AIM based on CADAS product family. Turnkey solutions for NOTAM, FPL, RPL, OPMET, flight briefing, self/home briefing, AIXM/ARINC static data, AIXM 5, GIS based MAP/CHART, eAIP, ESI, AMHS. Service Oriented Architecture (SOA) / Enterprise Architecture.

### EGIS AVIA

Egis AVia provides Atalis, a complete integrated system: From AIM : AIXM db, Charting, AIP and eAIP, NOTAM and Briefing Offices. To ATS : Flight Planning, General information management, Flight movement.

### ESRI

Leading GIS software, with database centric Aeronautical applications for charting, data editing, web publishing, AIXM, 3D visualization, analysis, and more.

### FREQUENTIS

Supplier of the EAD System and of general complete modular and scalable AIM solutions including AIXM database, integrated NOTAM and METEO data management, web-based integrated pilot briefing, eAIP and GIS-based charting, portal based integrated solutions, SWIM-type web service exchange layer, ADQ1 originator solutions. We also offer AFTN, AMHS messaging with second to none performance and availability due to its integrated architecture from message stack to HMI out of one hand.

### GroupEAD Europe S.L.

GroupEAD Europe S.L. is an Aeronautical Information Service Provider. GroupEAD was founded in April 2001 by Aeropuertos Españoles y Navegación Aérea (AENA), DFS Deutsche Flugsicherung GmbH and Frequentis AG. GroupEAD provides the European AIS Database (EAD) Data Operations and EAD Training service. In addition the full range of the Aeronautical Information Management in terms of consulting, services and training are provided.

### IDS Ingegneria dei Sistemi

Central AIS DB, AICM-AIXM/ARINC compliant; Tools for Automated Chart Production and Publications (IAS Suite), AIP and eAIP; ESI Interface to EAD; integration AIS-procedures design.

### INDOAVIS

Aeronautical webdata services, Aeronautical navigation charts/AIP and Aeronautical GIS program, e-OCC applications, supporting to Air Operators, Flying Schools, civil aviation authorities, military organizations, air police units and oil companies.

### Luciad

LuciadMap - Software Components for AIS.

### Managed AIS

FrameAPS to manage parts of AIS including AIP, AIP supplements, AICs, Static data management.

### Mileridge

Provider of expert consultancy support services to the AIS and AIM community, including support to regulation, Single European Sky certification and data integrity.

### NedGraphics CAD/GIS

smartGlobe Aeronautical Charting System and Database; smartGlobe WDM Web Charting; ARINC 424 and AIXM compliant; PDF and SVG output; Full project service and training package.

#### R.I.S.K

Software Systems for Flight Procedure Design (PANS-OPS) and Aeronautical Charting (Annex 4 ICAO), Design and Assessment of Aerodrome Obstacle Limitation Surfaces (Annex 14 ICAO), Package of Tools for Airspace Design, Aeronautical Information Database (AIXM compatible).

#### Synclude

Services: electronic AIP migration, support, training and development. Products: eAIP Publisher (fast publication in PDF & HTML), eAIPDiff (automatic amendment mark-up).

#### Thales Air Systems

Integrated AIS (ANAIS): ARINC/AIXM data, NOTAM, MET, FPL, ENA Interface; Self-Home Briefing (AES); ATC Information; AIXM Reference Database integrated with AIP, Charting, Procedure Design; AFTN/AMHS Switch.
