No. 17-110531-A

Call for Tenders with a view to establish a time-based contract for SESAR PJ20 – Master Plan Maintenance to support the preparation and conduct of the Master Plan update campaign including support for the eATM Portal as from November 2017 for a period of fifteen (15) months, with a possibility of extension up to eighteen (18) months.

The European Organisation for the Safety of Air Navigation (EUROCONTROL) was founded in 1960 by six States. It now has 41 Member States. EUROCONTROL's mission is to harmonise and integrate air navigation services in Europe, aiming at the creation of a uniform air traffic management (ATM) system for civil and military Users, in order to achieve the safe, secure, orderly, expeditious and economic flow of traffic throughout Europe, while minimising adverse environmental impact.

The SESAR 2020 R&I Programme aims to modernise and harmonise the European ATM System from an operational and a technological perspective. It is an essential component of the Single European Sky (SES) initiative and contributes to achieving its high level performance objectives by increasing the capacity of European ATM systems while reducing ATM costs and the environmental impact of flights yet increasing the level of safety. It covers the period 2016-2019, with a further outlook to 2021.

Given the complexity of the programme, a legal entity was founded by the European Commission and EUROCONTROL, to coordinate and concentrate all relevant research and development efforts in the Community. The mission of the SESAR Joint Undertaking (SJU) is to develop a modernised air traffic management system for Europe. This future system will ensure the safety and fluidity of air transport over the next thirty years, will make flying more environmentally friendly and reduce the costs of air traffic management.

As a civil and military intergovernmental organisation, EUROCONTROL's competences comprise acknowledged ATM capabilities and expertise based in several European countries.

The contributions to SESAR have been established in partnership with the members of the Joint Undertaking and are structured in accordance with the SESAR 2020 R&I work programme.

IMPORTANT NOTICE

The full i-call for tenders documentation is in electronic format (.pdf).

If you wish to obtain the i-call for tenders documentation please read and follow carefully the instructions below:

1. **If you are already registered in the EUROCONTROL Supplier Portal, please send an e-mail to the Point of Contact mentioned above to get access to the documentation.**
2. **If you are not yet a EUROCONTROL supplier, please follow the 4-step process described on the following link:**

<http://www.eurocontrol.int/articles/supplier-portal-registration-procedure>

3. EUROCONTROL accepts no responsibility whatsoever for the completeness, accuracy and/or timeliness of the transmission of the electronic documents (nor for the electronic documents themselves).
4. Submission of tenders shall **be made electronically** and shall be exclusively made in strict accordance with the instructions given in the "NOTICE CONCERNING THE PRESENTATION OF TENDERS".
5. You may:
 - a) print out the documents;
 - b) forward the documents further on a strictly need to know basis (always fully acknowledging the source, i.e. EUROCONTROL), and
 - c) use print-outs of the electronic i-call for tenders documents for the submission of tenders (especially Form i-AF32CFT).
6. You may not:
 - a) modify, edit and/or change the electronic documents;
 - b) transmit such documents to any third person who has no need to know them;
 - c) post such documents on any private or public website;
 - d) alter the originating source (EUROCONTROL) and or copyright signs etc., and
 - e) transmit the documents without indication of the source.
7. EUROCONTROL reserves the right not to send you the tender documentation, if your company is considered as incapable of submitting an offer to the i-call for tenders (size of the project, complexity etc.).

An environmental notice:

With a view to reduce the exponential growth of paper consumption, we would invite you only to print out electronic documents received and/or request paper copies of the price enquiry documentation if you are actually considering to submit a tender.
