

REF. 17-110838-E

Price Enquiry for the provision of the SPPAT Upgrade 2018

EUROCONTROL is an intergovernmental organisation made up of 41 Member States. Founded in 1960, it is a civil-military organisation that has developed into a vital European repository of air traffic management (ATM) excellence.

EUROCONTROL DPS, through its Support to States and Regional Initiatives function, has engaged in responding to the requests for assistance of the Member States' Authorities, mainly NSAs/CAAs, to implement their tasks related to performance and business plans developments and the monitoring of their implementation.

In this context, DPS/SSR developed a software tool, named "Strategic Planning & Performance Assessment Tool (SPPAT)", intended primarily for performance and business plans development and for the monitoring of their implementation. SPPAT is also a decision making support tool assessing the sustainability and performance of the strategic business plan of any given aviation regulator and/or air navigation service provider.

In order to improve the performance of the application it was decided to host it on EUROCONTROL servers. To allow the migration from the Azure cloud infrastructure to the EUROCONTROL server environment, the SPPAT software should be converted, transforming the desktop application to a pure web application accessible remotely via https. At the same time, since new regulations or amendments are frequently published and changes are made in the reporting forms, a need arises on the tool continuous maintenance, development and upgrades.

A price enquiry is requested covering the period until end 2018, during which a new generation of SPPAT shall be developed in line with the technical specifications attached. This new generation of the SPPAT tool will fully address the new requirements of the CAAs/NSAs together with the regulation on Airspace Users and Airports. Moreover the resulting tool shall conform fully to the SES and EASA Regulatory Framework.

Who should tender: Companies with a proven record in delivering consistently high standards of software development support for large international organisations.

Closing date: Friday 26 January 2018 at 15:00 (CET)

Point of Contact:

If you wish to receive the price enquiry or if you have any other related questions, please contact:

IMPORTANT NOTICE

The full i-price enquiry documentation is in electronic format (.pdf).

If you wish to obtain the i-price enquiry documentation please read and follow carefully the instructions below:

- 1. If you are already registered in the EUROCONTROL Supplier Portal, please send an e-mail to the Point of Contact mentioned above to get access to the documentation.**
- 2. If you are not yet a EUROCONTROL supplier, please follow the 4-step process described on the following link:**

<http://www.eurocontrol.int/articles/supplier-portal-registration-procedure>

3. EUROCONTROL accepts no responsibility whatsoever for the completeness, accuracy and/or timeliness of the transmission of the electronic documents (nor for the electronic documents themselves).

4. Submission of tenders shall **be made electronically** and shall be exclusively made in strict accordance with the instructions given in the "NOTICE CONCERNING THE PRESENTATION OF TENDERS".

5. You may:

- a) print out the documents;
- b) forward the documents further on a strictly need to know basis (always fully acknowledging the source, i.e. EUROCONTROL), and
- c) use print-outs of the electronic i-price enquiry documents for the submission of tenders (especially Form i-AF3/2CFT).

6. You may not:

- a) modify, edit and/or change the electronic documents other than to submit the required info and to sign/stamp where required;
- b) transmit such documents to any third person who has no need to know them;
- c) post such documents on any private or public website;
- d) alter the originating source (EUROCONTROL) and or copyright signs etc., and
- e) transmit the documents without indication of the source.

7. EUROCONTROL reserves the right not to send you the tender documentation, if your company is considered as incapable of submitting an offer to the i-price enquiry (size of the project, complexity etc.).

An environmental notice:

With a view to reducing the exponential growth of paper consumption, we would invite you only to print out electronic documents received and/or request paper copies of the call for tenders documentation if you are actually considering to submit a tender.
