SESAR 2020 Project PJ07 CFSP Expertise- relaunch of the call for tenders with the reduced scope

The overall objective of this contract is to provide CFSP expertise in the domain of Trajectory Based operations related to solution PJ07.01 "Airspace Users' Processes for Trajectory Definition". The successful tenderer shall contribute to the definition of the interop requirements, the capture of operational and technical requirements, the writing of TS/IRS (Technical specifications) and the development of prototype in support to validation. The successful tenderer shall also participate to the definition of the validation plan, to elaborate operationally relevant validation scenarios, of an exercise managed by EUROCONTROL. Following the execution, the expert(s) of the tenderer shall contribute to the production of results and the writing of the validation report. The tenderer will also support EUROCONTROL in its contribution to several exercises managed by other partners in the Solution 1 as well as to the Cost-Benefit Analysis activity.

Who should tender:

The Contractor Personnel shall demonstrate:

- a good understanding of the call for tender, in particular of:
 - o The SESAR 2020 Programme;
 - o The support and inputs expected from the tenderer;
 - o The needs of EUROCONTROL (e.g. key issues, expected results, etc.);
 - o Expected risks and opportunities in contributing to the SESAR 2020 Programme.
- relevant technical expertise in flight planning/dispatch/flow processes and supporting systems.
- a good level of English, especially ability to write professional documentation.

The following requirements will be considered as advantage:

- Experience in Network Manager Operations in relation with AUs.
- Technical expertise in applicable regulations and standards.
