NM B2B Web Services – Roadmap (WSTF 4)

NM B2B Web Services – Roadmap 2018+

NM Release 23.0 (Spring 2019)

- **ATFM Slot Message via B2B**
 - The ATFM slot messages provided by B2B will be the complete set to allow AOs that file via B2B to have complete flight management done via B2B.
- **Traffic Volume Profiles**
 - NM B2B web services shall provide users with Traffic Volume profile which will make the P/S Flight Data message a complete alternative to EFD.
- **Provide NM route catalogue via B2B**
 - NM B2B web services shall provide users with the route catalogue (city pair stats) via NM B2B. There have been a number of requests for this.

NM Release 23.0 (Spring 2019)

- **Support update of multiple tactical plans at once in B2B**
 - NM B2B web services will provide users with the ability to update multiple tactical plans (Update Capacity plan, Update OTMV plan) at once
- **Country code information in Timesheets**
 - NM B2B web services will export Timesheets containing country code information (requested by several users since 2015).
- **Initial support for FF-ICE/1.**

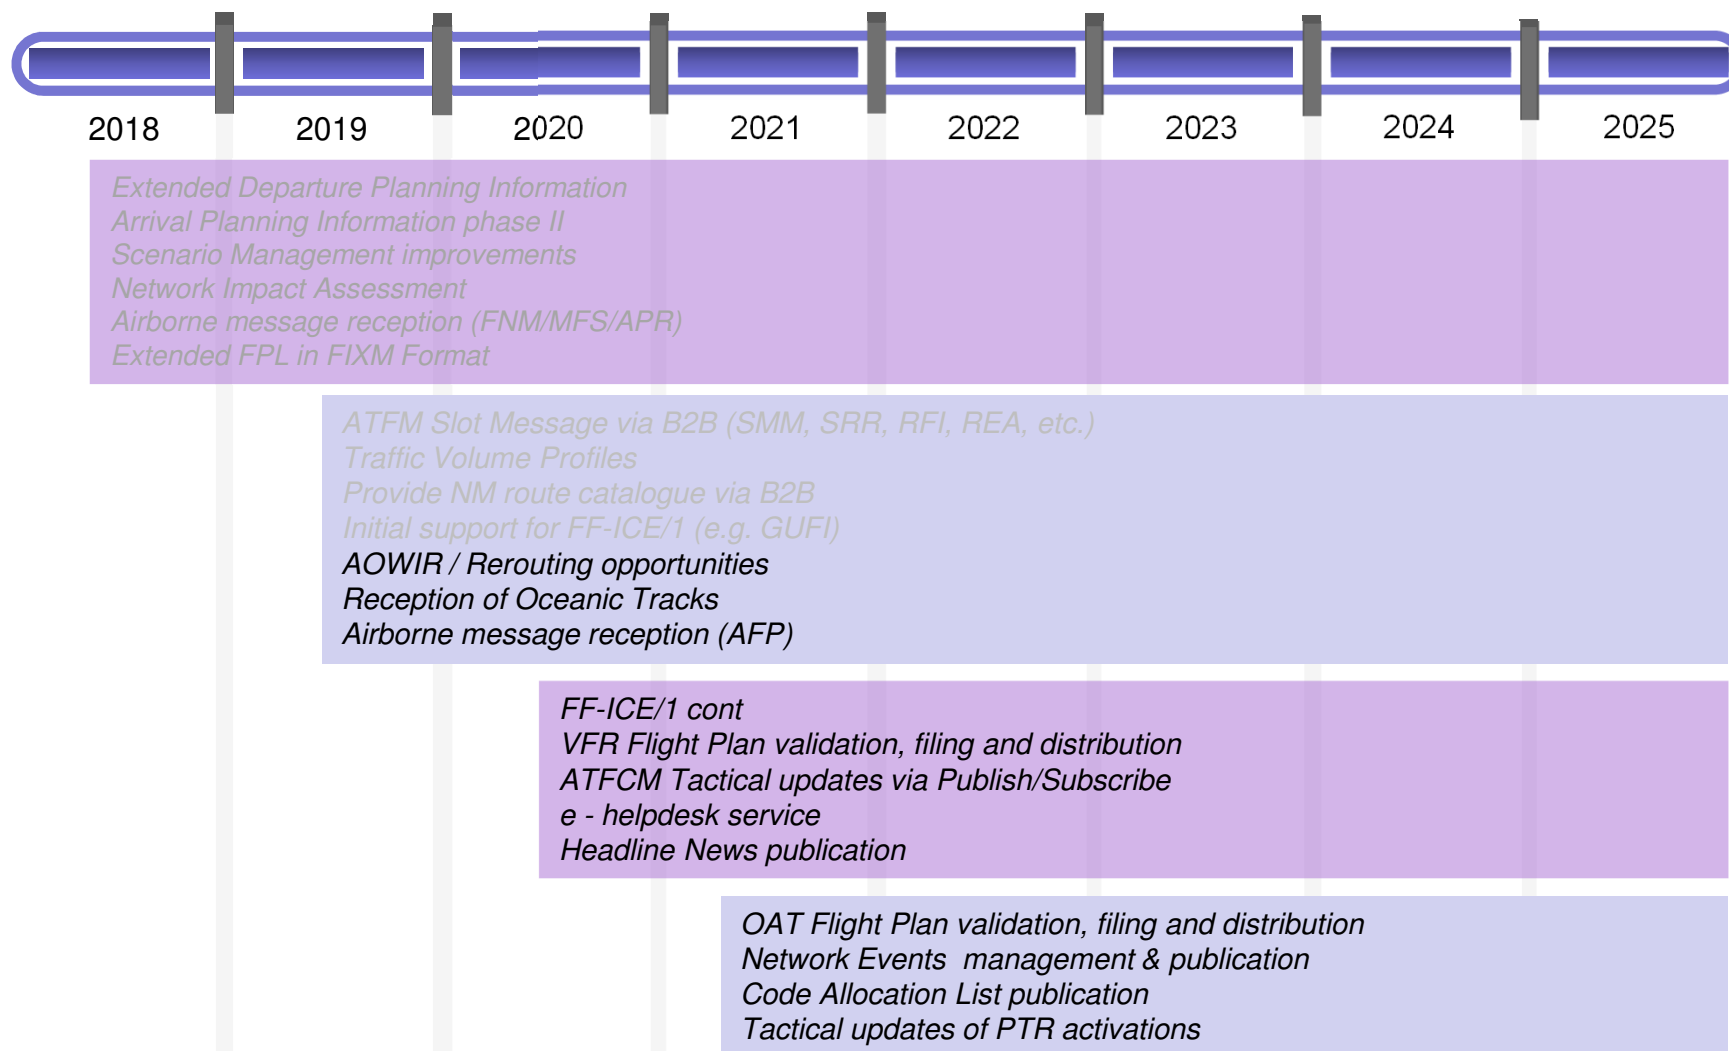

**WHAT
ARE MY
PRIORITIES?**

**WHAT
ARE
YOURS?**

A hand holding a fountain pen is positioned over a notebook page. The word "Priorities" is written in cursive on the page and is underlined. The pen is a fountain pen with a dark, textured barrel and a gold-colored nib. The notebook is open, and the page is white. The background shows a wooden surface and a wooden pen cap.
